PROFILE

[GitHub](#)

Highly skilled and motivated Back-End Web Developer with over 1 years of experience in developing responsive and user-friendly websites. Proficient in Django and Django Rest Framework. Proven ability to collaborate effectively with cross-functional teams to design and develop innovative solutions that meet business requirements. Strong problem-solving skills. Delivering high-quality, scalable web applications.

PROJECT EXPERIENCE

Automating the differentiation of graduate studies in universities

- The backend was developed using the Django and Django Rest Framework, where the focus was on two parts of the virtuous year, parallel where the student enters the full name and national number and accordingly limits his average from the college to which he belongs.
